	متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.	14			
	Solar energy is the most effective of all energy resources and it can even be available in cloudy				
	weather. The solar energy which comes to the Earth is about 10,000 times greater than the				
	amount which humankind consumes. Solar technologies can deliver heat, cooling, natural				
	lighting, electricity, and fuels. Solar technologies convert sunlight into electrical energy				
	through solar panels or mirrors. Although not all countries use solar energy, it is possible for every country.				
٣	The cost of producing solar panels has surprisingly decreased in the last few years, making				
	them not only in access but often the cheapest form of electricity. Depending on the type of				
material used in their production, solar panels can work for around 30 years.					
	True/False				
	41) Solar energy comes from the Earth. a. True b. False				
	42) Solar panels cost a lot in the last few years. 4. True				
	 43) Solar panels convert sunlight into electrical energy. 44) All countries use solar energy to generate electricity. a. True b. False b. False

٣	Sleep is essential for all people. Did you know that sleep is more important than food? A person, who does not sleep, dies at a younger age than one who does not eat. Let's say you sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third (1/3) of our lives in sleep. That's about 121 days a year! How much sleep do we require? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs 9 to 10 hours, and an adult needs an average of 7 to 8 hours of sleep a night. Of course, some people need only 3 hours of sleep each night. Others need 10 hours of sleep. After age 50, the average sleep time goes down to 6.5 hours a night. We need less sleep as we get older. True/False 48) Food is less important than sleep. 48) Food is less important than sleep. 49) There is no difference in sleep time among people. 50) Old people need hours of sleep each night. 49 to 10 40 b. 10 to 12 51) A person, who does not sleep,							10
۴	Looking up words you don't know can be difficult, especially if you don't know which definition to choose when you open a dictionary. When to look up a word, how an English dictionary is compiled, and which description to choose will help you effectively use the dictionary to improve your understanding of the reading texts. First, decide when to use the dictionary. Guess the meaning of the word based on the context before looking it up. Read the whole sentence, and continue to read the paragraph to see if you can guess the meaning of the word based on the information surrounding it. Identify the part of speech, if you can, to help you find the meaning of the word. Look for prefixes, suffixes or roots that suggest the word meaning. If you are still confused or think you are missing important information, now it is the time to take out the dictionary. Decide which type of dictionary to use. There are different types of dictionaries available. They are called online dictionaries, learner's dictionaries, bilingual dictionaries, and monolingual dictionaries.							18
